

Nikhil Kankatri

Cybersecurity Enthusiast — SOC Analyst Aspirant
Mangalore, Karnataka, India

+91 8073917021 — nkankatri@gmail.com

Summary

Cybersecurity enthusiast with knowledge of network security, Linux administration, threat detection, and vulnerability assessment. Skilled in analyzing security incidents, monitoring logs, and investigating threats. Seeking an entry-level SOC Analyst role to apply cybersecurity skills and contribute to organizational security.

Education

Bachelor of Engineering (BE) in CSE(IOT, CyberSecurity And BlockChain)

Alva's Institute of Engineering & Technology, Moodbidri

Expected Graduation: 2027

CGPA: 7.5 / 10.0

Pre-University Course (PUC / 12th Grade)

RLS College, Dharwad (2023) Percentage: 76.36%

Class 10 (SSLC)

Pavan English Medium High School, Dharwad (2021) Percentage: 65.6%

Skills

Security Tools: Wireshark, Nmap, Burp Suite, Splunk

Operating Systems: Linux (Ubuntu/Kali), Windows

Networking: TCP/IP, DNS, HTTP/HTTPS, VPN, Firewalls

Programming: Python, Bash Scripting

Projects

Vulnerability Assessment Using Nmap

Conducted network scanning, service enumeration, vulnerability assessment, and security reporting to identify open ports and security risks.

SOC Monitoring Lab Using Splunk

Developed security monitoring dashboards, investigated simulated security alerts, and executed incident response workflows for threat detection and analysis.

Gesture Controlled Virtual Mouse

Developed a gesture-controlled virtual mouse using Python, OpenCV, and MediaPipe for real-time cursor control.

Certifications

-Cybersecurity for Businesses – The Fundamental Edition

-Cisco Introduction to Cybersecurity

-Cisco Cybersecurity Essentials

-NPTL (Introduction To Internet Of Things)

-Infosys Springboard: Network Security

Languages

English, Marathi, Kannada, Hindi

Achievements & Activities

-Participated in Capture The Flag (CTF) competitions

-Solved cybersecurity challenges on Hack The Box
